Affidavit

On or about January 25, 2008, Kristen Sabo docketing administrator of this office, conducted a status check of U.S. Patent Application No. 10/593,939 via the U. S. Patent and Trademark Office's PAIR system.

The status check revealed a Notification of Missing Requirements had been issued on May 10, 2007 regarding this application.

Ms. Sabo immediately searched our docketing system, application files and all records to confirm that we had not received this notice.

The Notification of Missing Requirements did not appear to ever have been received at this office.

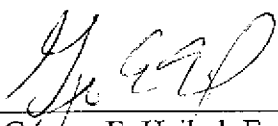

This office uses the PATTSY® docketing system for master docket reporting to record all incoming and outgoing communications.

In support thereof, attached please find the following:

- 1) A printed copy of our global docket report showing all docketed actions May 1, 2007 thru August 10, 2007 (three months from the mail date of the non-received Notification of Missing Requirements);
- 2) A copy of the PATTSY® docket record where the non-received Notification of Missing Requirements would have been entered had we received it; and
- 3) A copy of the executed Declaration in accordance with 37 CFR 1.66 and/or 37 CFR 1.68.

Dated: February 25, 2008

NOTES

MISSING PARTS - Kristen was doing a status check on this application via PAIR and found a Notification of missing parts dated May 10, 2007 had been issued. Kristen was on maternity leave during this time and/or we never received anything in the mail, so nothing was docketed. I called USPTO/Office of initial patent examination and they said the application is still active it has not been abandoned yet. I have to submit a petition withholding abandonment based on failure to receive Notification of missing requirements under 37 CFR 1.137 (7:11.03 Sub section C I .A) I have to include a copy of our docket record dated July 10, 2007 showing we did not receive or had this action docketed, etc., There are no fees for this petition.
